

SOCIAL MEDIA

Purpose

We want our social media sites to be places where people feel welcome and safe to express themselves and share their thoughts and ideas respectfully but not at the expense of the safety and well-being of others or the integrity of our community.

Policy

In the event of a damaging or misleading post or comment being made, the following actions should occur:

- The offending information should be removed.
- Where necessary an apology will be issued, either publicly or to the individual or organisation involved.
- The origin of the offending post should be explored and steps taken to prevent a similar incident occurring in the future.

Guiding Principles

Our policies are to maintain:

1. Our right to post and to allow other contributors to have posted articles that contribute to keeping people informed on those subjects that are of the defence family interest nature; and
2. The right to allow everyone to exercise their freedom of speech both to post their own comment and to comment on our postings, unless those comments we deem to be disrespectful, uncivil, abusive, unlawful, misleading and discriminatory that infringe or violate someone else's rights.

Procedures

Moderators, Editors and Administrators are to remove material as soon as practical and advise the RARC Board if any further action is appropriate or necessary.
