Housing & Sanitation Projects in Long Tan - Nui Dat area

OUR LATEST PROJECTS:

Building sanitation and hygiene amenity facilities and better housing for the poor children who live in our project areas. See photos enclosed.

Way back in 2006 a cyclone came through Vung Tau creating quite a bit of havoc, unfortunately with some loss of life. It was decided by a small group of Veterans and expats to get together and raise some money for the community.

We have certainly come a long way since then. We started out by giving TET presents to the school kids and a couple of orphanages. Gradually we moved on to bigger things.

Then around about October 2010 we decided to become a bit more organised and officially formed the VTVFCF .

We noticed that when the NGO's come over here (NGO's Non Government Organizations) they would embark on a project which they thought was a good idea with out asking the locals what THEY wanted. Then when they completed whatever they wanted to do they then went home feeling all warm and fuzzy and forgot about the kids. Now we are not complaining (some groups did some terrific work), we just thought that there should be a better way to do this .

Over the years we have developed our own system, which is as follows .

We consult with the villages to find out what they need

We try and make health housing and education our main priority

We buy all the materials locally (in the village) where practical

We hire local people to do the work

We commit to ongoing maintenance

BONG LAI Orphanage

This is the only Orphanage that we support
It is unique in that there is no paid staff, all are volun-
teers doing their pilgrimage and good deeds.
Also NO children are put up for adoption. They believe
that the children should be raised in their own country
with its customs and traditions
